Company Will Call for About \$50,000 to Pay Debts.

THEN SELL TO NEW COMPAN'

MATTER DECIDED AT MEETING YESTERDAY.

THE STOCKHOLDERS of the Calicided on a plan to extricate the com-

course, and their par value will be fixed at 25 cents. The stock will be States Last Year. assessable and when the bulk of the shareholders have signified their intention of seeing the scheme through, the old company's deeds will go into escrow, to be later taken up by the new

The first thing to be done, Judge Snyder says, is to levy an assessment to discharge the present indebtedness. This, he says, can and will be done, as the law permits it, and in order that every shareholder may thoroughly understand the proposition he invites them to meet in his office in the Atlas block at 4 o'clock tomorrow aft-

In order to discharge the company's indebtedness an assessment of between Wyoming's production increased to 16 and 17 cents a share, or approxi- over 100,000 tons. The highest average 16 and 17 cents a share, or approximately \$50,000, will have to be levied. All the heavy stockholders in the company have signified their intention of standing the assessment, and they hope to see every shareholder join them. It is the only way out of the difficulty, Judge Snyder says.

MAY HANDLE TAILINGS.

P. C. Brown Has Invented New Machine to Work Them Successfully.

Though no contracts have yet been signed, there is every reason to be-lieve that the 300,000 tons or more of tailings at the Mammoth company's property in Tintic will soon be taken hold of and made to yield up their metallic contents by a syndicate being formed by P. C. Brown of this city.

From a reliable source it was yesterday learned that Mr. Province of the country. The specimens to be specimens to be sufficient to the country. The specimens to be sufficient to the country of the country. day learned that Mr. Brown has perfected a new cyaniding machine that can be operated at slight cost and introduced at comparatively small ex-

same lines as the Bruckner roasting in Oregon and California. Tunnels furnace. It is attached to gearing that causes it to revolve very slowly, thus points and a number of prospect holes though easy motion. In this cylinder, which for commercial use will have a capacity of probably fifty tons, the tails are fed and mixed with a weak cyanide solution. Steam or hot air is also applied and the values pre-cipitated in the usual way. The in-ventor has no doubt that he can hancipitated in the usual way. The inventor has no doubt that he can handle the tallings that last year were given up as a bad job by Charles Butters, without the least trouble another consignment of silver-gold sul-

and are yet under way, and the day of the accumulated product for when the \$1,000,000 or more tied up in the Mammoth tailings dump will be recovered is in sight. Every mining man in the state will wish Mr. Brown all success in his undertaking.

or the accumulated product to the month, by any means—simply all that was dry enough to ship.

Manager Lathrap said he did not know how the lot would run, but judging from previous shipments, it will

BEN BUTLER DEVELOPMENTS. Shipping Ore Encountered in Milling Ore Raise.

At the Ben Butler property in Bing ham Manager Jacobs reports most sub-stantial developments in the drift off from No. 3 upraise, 140 feet above the tunnel level. The drift was recently started out in a seam of first-class ore only a few inches wide. On Wednesday there were fourteen inches \$6,200. of it and yesterday the superintendent telephoned in that the pay streak had widened to two and one-half feet. The ore assays about 50 per cent lead, four or five ounces silver and 60 cents in gold per ton, with the usual heavy

Manager Jacobs does not view the disclosure in the nature of a strike, at all, but as the raise mentioned has been productive of little else than a large tonnage of milling ore, the appearance of first-class is, of course, gratifying. In No. 6 raise; to the east, drift is now being prosecuted to prospect the area near the eastern extremity of the company's property, while considerable open cut work on the surface is being done to establish apex evidence to be used in the suit brought by the Liberal.

Right at the grass roots, Manager Jacobs says, ore is being taken out that runs 36 per cent lead, and it now looks

ore come this way to market instead of sending it to San Francisco or Everett, Wash. The consignment will Everett, Wash. The consignment will interest local operators in that it is the first time any ore from the famous Nevada pamp ever landed in this market. It will give them an opportunity to see it, if they want to, and there is little or no doubt that the management will consent to the publication of ment will consent to the publication of

lot is ready for sale. It is understood that the Tonopah company has not yet been able to arrange a freight rate with the Southern Pacific railway that would justify it-in diverting all its ores in this direction, but as this is the logical market and the point at which the company would much prefer to do its business, a strong hope is still entertained that the Southern Pacific will yet make it possible for the producers of the new camp to do their business here if they

TO DEVELOP WAX MINES.

Nos. 1, 2 and 3 wax mines, to be food during the hot weather.

company, with a capital stock of \$100,-000, to be divided into shares of the par-

value of 10 cents each.
The company is to be organized within four months from March 18, 1902, and upon its organization and ance with the terms of the agreement in regard to the disposition of the capital stock, the cashier of the First National bank of Milwaukee is authorized to deliver deeds to the mining property, now held in escrow by the bank, to the party of the second part.

DOWN 2,100 FEET IN MAMMOTH. Ledge is Strong and Good Pay Ore

is Being Opened Up. The winze from the 2,000-foot level of the Mammoth mine is now down to the 2,100-foot mark, the deepest point eached by any mine in Utah up to date, and that pay ore exists there in good commercial quantity should be fornia company, in session at gratifying news not only to the share-Park City yesterday, finally de-

(Special to The Herald.) Washington, June 7 .- The geological survey reports of iron ore production in the United States for 1901 shows a total production of 28,887,479 tons, a gain of 1,334,318 tons over the previous year. Among the twenty-five states and one territory producing fron ore Colorado ranks ninth, with a total of 404,037 tons, a decrease of 1 per cent from the state's production in 1900 they are not included in the report Utah was dropped from the list of producing states during 1901, while value reported was \$3.018 per ton, in Colorado: lowest average, 92c per ton,

If the big deals now maturing on Utah iron materilize, as expected, Utah will not only soon re-enter the lists, but it will lead every state in the Union in both tonnage and value of its roduct.

COPPER IN COAST RANGE.

Rich Strike Reported From Oregon-California Boundary. (Special to The Herald.)

San Francisco, June 7 .- Remarkably out were over half copper and it is undoubtedly the richest copper ore ever uncovered on the coast.

The rock was taken from the claims of Colonel I. D. Crawford, formerly of pense, which will save the values beyond question and provide a good profit.

The new machine is described as a cylinder that is built on much the cylinder that the cylinder that is built on much the cylinder that is built on much the cylinder that is built on much the cylinder that the cylin

OPHIR SULPHIDES.

phides-about 2,700 pounds-that will ters, without the least trouble.

Experiments and tests of an exhaustive nature have already been made, the sampled and sold tomorrow. The shipment does not represent all the sampled and product for the sampled and sold tomorrow.

net the company a very snug sum over and above operating expenses. He says everything is moving smoothly at the property.

Ore and Bullion,

Ore and bullion settlements in this city during the past week amounted to \$469,890, yesterday's proportion of the total being \$51,700, as follows:

McCornick & Co., silver, lead, gold

and copper ores, \$45,500; base bullion,

Metal Market. Silver, 51%c per ounce. Copper, 11%c per pound; New York, 12e@12%c.

Lead, \$3.50 per 100 pounds; New York,

One Day's a Year Ago. The week on the mining exchange closed yesterday with the sale of 16,125 shares for \$10,514.10, while the business for the six days totaled up to 306,485 shares and \$106,924.50, or the equivalent of one fair day's business last year at this time. Low as prices ruled on Monday, the end of the week finds then, with isoluted excentions still lower.

lated exceptions, still lower.

It could hardly be otherwise. The public is not buying and every day finds the professional trader taking less interest, and whatever interest he does take it in an endeavor to force quotations still

would develop good bodies of shipping ore. A car of first-class ore will be on the market tomorrow.

TONOPAH ORE ARRIVING HERE.

A Trial Shipment of 500 Tons Will Be Marketed.

The first consignment of a 500-ton lot of Tonopah ore reached the city yesterday and the balance of the lot is expected to arrive early in the week. On his recent visit to this city, General Manager Oddie arranged to have the ore come this way to market instead of sending it to San Franciscal and the delay of the same prices they commanded at the start. Galena sold on Monday for 17 cents and yesterday was the same prices they commanded at the start. Galena sold on Monday for 17 cents and yesterday was a support of the same prices they commanded at the start. Galena sold on Monday for 17 cents and yesterday was a support of the same prices they commanded at the start. Galena sold on Monday for 17 cents and yesterday was a support of the same prices they commanded at the start. Galena sold on Monday for 17 cents and yesterday was a support of the same prices than on Monday, at 34½ cents, while 32½ cents is selling at 25 cents, as against 31 cents on Monday, while Consolidated Mercur closes about as it opened.

Daly-West is about stationary at \$45, the most bid for it.

Carisa is selling at 25 cents, as against 31 cents on Monday, while Consolidated Mercur closes about as it opened.

Daly-West is about stationary at \$45, the most bid for it.

Carisa is selling at 25 cents, as against 31 cents on Monday for 12 cents is the most bid for it.

Carisa is selling at 25 cents, as against 32 cents on Monday of the same prices they commanded at the

Reduced 20 Degrees in Summer. Never eat heavy carbonaceous foods for the morning meal, for these foods reached the market yesterday, as did reached the market yesterday.

bly a couple of eggs prepared to suit the figures showing its value, when the taste—this breakfast is sufficient to satisfy the hardest worker, either of brain or muscle, until the noonday

> Particularly is this true at the present season of the year, when meat and other fatty foods increase the internal heat of the body and make the summer day still more disagreeable.

> Grape-Nuts come to you from the grocer ready to serve, having been fully cooked at the factory by food experts and this saving in time and exertion is appreciated by the housewife as well as the economy, for being a concentrated food, four teaspoonfuls is sufficient for the cereal part of a meal for

one person and costs only 1 cent.

A booklet of excellent recipes is found Provo, June 7.—An agreement between S. P. Brillhart and D. B. Higgins weather dishes can be made for lunch-

tween S. P. Brillhart and D. B. Higgins of Denver, parties of the first part, and the Milwaukee Mutual Mining & Development company, organized under the laws of Wisconsin, party of the second part, has been filed with the county recorder.

The agreement provides that the party of the second part shall organize a mining company to operate the Colarming the hot weather.

Weather dishes can be made for lunchhas been working on Indian creek for has been working on Indian creek for has been working on Indian creek for has been working on Indian creek for several months, left yesterday for Salt Lake with about fifty pounds of samples. He will be absent a couple of months.

Sec. and Treas. Salt Lake City, Utah, June

I have been troubled with stom ach ailment for a number of years and sever headaches. A friend gave me two Ripans Tabules. The change in my feelings caused me to purchase a box, and now there is nothing any person could say that would keep Ripans out of my home.

At Druggists. The Five-cent packet is enough for all ordinary occasion. The family hot tle, 60 cents, contains a supply for a year.
